

LINDDNA
— project & hospitality

WELCOME TO LIND DNA HOSPITALITY & PROJECT

We are determined to offer Danish sustainable design products with focus on functionality, creativity, flexibility and quality.

We offer state of the art solutions for tabletop, interior design of rooms, offices, conference surroundings etc. Our designs will help you make a statement in any kind of setting and to create memorable experiences for your guests.

All our products are born out of passion for beautiful, subtle design and impeccable craftsmanship. Everything we do is based on local and sustainable production, the use of durable materials and top-notch quality standards.

Sustainable Danish design

LIND DNA is rooted in Denmark. In Danish design, craftsmanship and local production. We care deeply about sustainability and our own production enables us to limit our footprint on the environment.

Sustainability is at the heart of the LIND DNA strategy. The bedrock of most of our designs is high-quality recycled leather, certified by OEKO-TEX. The leather consists of 80% real leather and 20% natural rubber from trees, and is therefore durable and dirt resistant.

Inspiration and details make the difference

Through our designs we strive to bring new inspiration to what a hotel, restaurant, office space, conference area or other hospitality settings can be. Showing how interior design can create atmosphere and unique surroundings that will inspire its users while making them feel at home and at their best.

Hotels and restaurants from all over the world turn to LIND DNA for our excellent quality of products – tailored to their needs. It is our mission to help our customers not only to get noticed, but also to be remembered. Be remembered for gorgeous design, intelligent details and sustainable choices that - together with an exquisite service - provide an outstanding experience.

Jette Skovbjerg, Vice President, LIND DNA

Customization

We offer many degrees of customized solutions. We know that the details make the difference – and we are here to make these extra details talk. Whatever your wishes are, our in-house design & graphic department is ready to meet your ideas with unique and inspiring solutions.

Get in touch
